Gravity

Executive

Gravity, the nobility turned into furniture, is a noble asymmetry between the monotonous lines of the four walls. Custom design geometric chrome legs and a solemn design rising on the legs. Supporting the unique polygonal table surface, the storage unit does not narrow down the space while dividing the area. Polygonal like the desk, the cabinet is designed without handles for a solid look. Make stylish differences in your office with configured equipment from the series.

Otto

Working

Otto, which is a minimal design with simple, clear lines and rich color options that keeps to its essence, will be the choice of those who do not like to have plenty of things around the workspace. Its independent side table has a simple design which can be used elsewhere in the office. Same simplicity has been used for its storage and display spaces as well.

Harmony

Sofa

The indispensable effect of black has reached another level in the Harmony series with its special button form. The armchair series, designed only in black, will be the apple of the eye of your office with its stylish traditional build. An original design that can be used in executive or assertive reception areas. There are multiple and single usage options in this series, which is limited to more circular forms apart from the traditional angular sofa structure.
